

ABOUT US

The Texas Water Supply Partners (TWSP) is a group of like-minded entities who share a commitment to advancing and influencing policy related to the development of water supplies throughout Texas, including implementation of the Texas State Water Plan. Our partners recognize that clean, affordable, reliable supplies of water are essential to public health, quality of life, and the economic prosperity of the great state of Texas.

OUR FOOTPRINT

OUR SERVICE AREA

- Current Service Population: 4,840,620
- Projected Service Population (by 2070): 10,067,161
- Square Miles Covered: 23,967
- Number of Counties Wholly or Partially Served: 32

OUR NETWORK

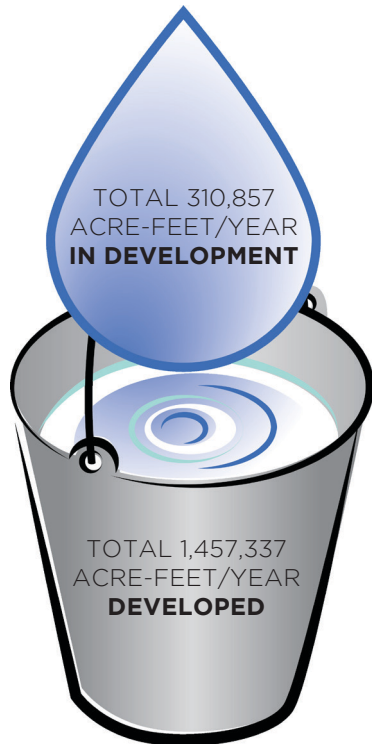

- Statewide network of CEOs and senior business leaders from 66 companies across Texas
- Texas' only CEO-based public policy research organization
- Sole raw water provider to second largest oil refinery in the United States
